Early-career Full-Stack Developer with demonstrated ability to architect and build complex applications from scratch. Currently leading development of Capture, a privacy-focused social media platform with modern React Native frontend and serverless backend.

TECHNICAL SKILLS

Frontend: React Native, React.js, TypeScript, TanStack Suite, Tailwind CSS, Zustand, Jotai

Backend: Node.js, Hono, Cloudflare Workers, D1 Database, Drizzle ORM, GraphQL

Tools & Infrastructure: Signal Protocol, AWS/Cloudflare, Docker, CI/CD, Git

PROJECTS

Capture | Full-Stack Social Media Platform | React Native, TypeScript, Node.js 2025

- Independently architected and developed a social media platform focused on user privacy and mental wellbeing
- Built secure authentication system with multi-factor verification and end-to-end encrypted messaging
- Created responsive mobile UI with React Native and deployed on Cloudflare's edge infrastructure
- Implemented robust state management using React Query, Zustand, and Jotai for optimized performance
- Utilized modern development practices including TypeScript, Git for version control, and CI/CD for deployment
- GitHub: github.com/Jai-Dhiman/capture

Developer Portfolio | React, TypeScript, Hono, PostgreSQL | www.jaidhiman.com 2024

- Designed and built personal portfolio with dark/light mode and interactive animations
 - Implemented custom animations using Framer Motion and type-safe database operations with Drizzle ORM
 - Deployed with Vercel for optimal performance and reliability
 - GitHub: github.com/Jai-Dhiman/portfolio2
-

EDUCATION & CERTIFICATIONS

Actualize Coding Bootcamp 2024

- Completed 500+ hours of intensive full-stack development training
- Developed ability to quickly learn and apply new technologies
- Gained experience with collaborative development workflows

Bachelor of Music in Performance – Berklee College of Music 2020 – 2023

- Developed strong analytical thinking and project management skills

Microsoft Certified: PL-300 Power BI Data Analyst Associate

Microsoft Certified: PL-900 Power Platform Fundamentals

PROFESSIONAL EXPERIENCE

Operations Specialist – Clover Food Lab 2023 – 2024

- Demonstrated strong communication and problem-solving skills in a fast-paced environment
